

WG602

54 Mbps* Wireless Access Point

- *Help is there when you need it! NETGEAR provides, 24x7 technical support* in English, with selected local language support during office hours.*

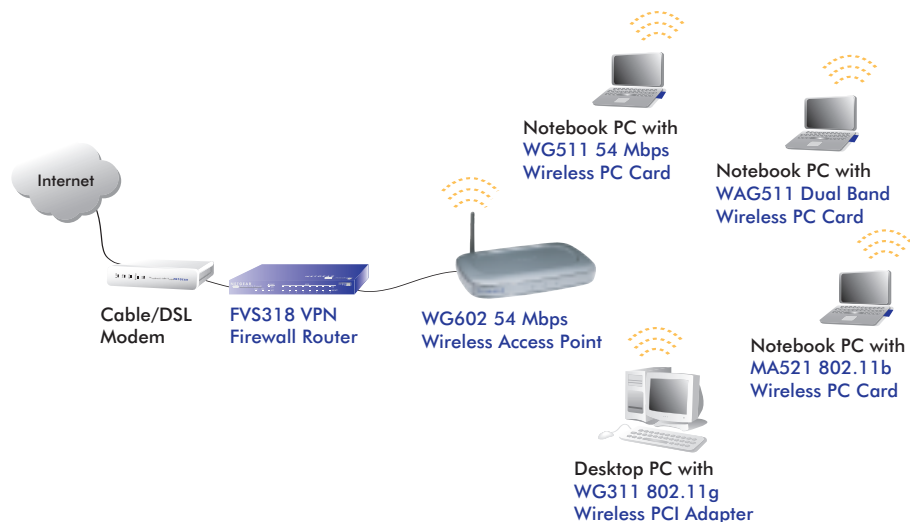

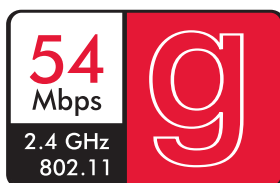

Up to 5x Faster and Backward Compatible with 802.11b Wireless Networks

NETGEAR's WG602 Wireless Access Point connects to all IEEE 802.11b wireless networks. And it lets you add new clients at the screaming-fast IEEE 802.11g standard at 54 Mbps, while it maintains support for your existing 802.11b network—taking care of today's needs as well as tomorrow's. With its high-speed data transmission of up to 54 Mbps network users can share a broadband Internet connection, access e-mail, download large files, videoconference, and distribute and play digital images, videos, and MP3 files. Easy to set up and use, NETGEAR's Smart Wizard install assistant makes installations a cinch. And with up to 128-bit WEP encryption, you can rest assured that your wireless network communications are private.

High-speed ● Simultaneously supports both IEEE 802.11b and 802.11g standard devices and networks. This dual mode capability protects your 802.11b wireless investment and, at the same time, has you ready for the up to five times faster 802.11g. Provides connectivity to a wired or wireless network for expanded bandwidth. Higher speeds expedite large file downloads and facilitate videoconferencing and the distribution and playing of high-quality multimedia content.

Secure ● Provides the highest available level of industry-standard WEP encryption: 128-bit for both 802.11b and 802.11g devices. MAC address authentication offers enhanced security by ensuring only authorized users can access the network. Wi-Fi Protected Access using a pre-shared key (WPA-PSK) also supported.**

Dependable ● Connect two LANS wirelessly using the bridge mode. Extend your wireless signal by adding a WG602 in repeater mode.** Dynamic rate shifting according to environmental conditions achieves the fastest possible connections. Thorough testing ensures quality and reliable operation, which NETGEAR backs up with a solid 3-year warranty.

Technical Specifications

802.11b/g

- Radio Data Rate:
 - 1, 2, 5.5, 6, 9, 11, 12, 18, 24, 36, 48 & 54 Mbps
- Modulation Type:
 - OFDM with BPSK, QPSK, 16QAM, 64QAM, DBPSK, DQPSK, CCK
- Frequency:
 - 2.412 ~ 2.462 GHz (US)
 - 2.412 ~ 2.484 GHz (Japan)
 - 2.412 ~ 2.472 GHz (Europe ETSI)
 - 2.457 ~ 2.462 GHz (Spain)
 - 2.457 ~ 2.472 GHz (France)
- Antenna:
 - Single detachable 2 dBi antenna
 - Transmit Power: 16 dBm
- Security:
 - 40-bit (also called 64-bit), 128-bit WEP encryption
 - WPA-PSK**
 - MAC Address filtering
- Features:
 - Smart Wizard for easy installation
 - Supports bridging and repeater mode**
 - Firmware upgradable via a web browser
 - Backward compatible with existing IEEE 802.11b devices
 - SSID Broadcast enable/disable**
- Power Adapter:
 - 12 VDC, 1.2 A; plug is localized to country of sale
- Physical Specifications:
 - **Dimensions:** 28 x 175 x 118 mm (1.1 x 6.9 x 4.7 in.)
 - **Weight:** 0.3 kg (0.7 lb)

- Electromagnetic Compliance:
 - FCC Part 15 Sub Class B, CE
- Environmental Specifications:
 - Operating Temperature: 0 to 60° C (32 to 140° F)
 - Operating Humidity: 5-95% (noncondensing)
- Warranty:
 - NETGEAR 3-year warranty

Package Contents

- 54 Mbps Wireless Access Point WG602
- Power adapter
- Ethernet cable
- Resource CD
- User's guide
- Warranty/Support information card

Minimum System Requirements

- Pentium® Class PC
- Windows® 98SE, Me, 2000, or XP
